## AVALON'S 1/4" CLEAR MIRROR

Avalon Glass and Mirror Company manufactures a mirror equal to or superior to any mirror in the world.

AVALON has been dedicated to producing fine quality mirrors since 1950.

The GLASS QUALITY used in the manufacture of AVALON'S MIRRORS conforms to the AMERICAN SOCIETY FOR TESTING AND MATERIALS (ASTM) STANDARDS...**ASTM C 1036 FLAT GLASS 4.2.1**. Mirror Glass – **Type 1, Class 1, Quality q1** and **ASTM C 1503-01** (Standard Specification for Silvered Glass Mirror).

AVALON'S MIRRORS are coated with successive layers of chemically deposited silver, electro-chemically deposited copper, and a two coat protective organic coating system that complies with Federal Specifications #DD-M-00411c except with salt spray test period extended to 300 hours and undercutting, discolorations, blackening, and silver impairment at mirror edges not greater than 1/8".

AVALON'S STATE-OF-THE-ART SILVERING CONEYER is a KLOPPER MACHINE, a Germanbuilt machine which is 450 feet in length, features a curtain and a roll coater, and coats glass 100" in width.

AVALON'S MIRRORS reflect its personnel who take pride in their craftsmanship, technical expertise, teamwork and in SERVING YOU, OUR CUSTOMER.
